

Wool Trousers containing at least 85 percent worsted wool fabric by weight with average diameter greater than 18.5 microns. Production data must be provided for the first six months of the year of the application. This data will be annualized for the purpose of making Tariff Rate Quota allocations.

(3) *2000 Production Data.* For applications for the 2001 Tariff Rate Quota Year, if production data is not available by micron count, the following method of estimating micron count will be accepted: To estimate production of Worsted Wool Suits, Worsted Wool Suit-Type Jackets and Worsted Wool Trousers made from worsted wool fabric with average diameter 18.5 microns or less, use a value of \$8.50 per square meter (f.o.b. plant) or more for such garments made from domestic fabric and \$12.50 per square meter (c.i.f. duty paid landed value) or more for such garments made from imported fabric. To estimate production of such garments made from worsted wool fabric with average diameter greater than 18.5 microns, use a value of less than \$8.50 per square meter (f.o.b. plant) for such garments made from domestic fabric and less than \$12.50 (c.i.f. duty paid landed value) per square meter for such garments made from imported fabric.

(4) *Worsted Wool Fabric.* Data indicating the quantity and value of the Worsted Wool Fabric used in reported production.

(5) *Certification.* A statement by the applicant (if a natural person), or on behalf of applicant, by an employee, officer or agent, with personal knowledge of the matters set out in the application, certifying that the information contained therein is complete and accurate, signed and sworn before a Notary Public, and acknowledging that false representations to a federal agency may result in criminal penalties under federal law.

(e) *Confidentiality.* Any business confidential information provided pursuant to this section that is marked business confidential will be kept confidential and protected from disclosure to the full extent permitted by law.

(f) *Record Retention:* The applicant shall retain records substantiating the information provided in § 335.3(d)(2), (3),

and (4) for a period of 3 years and the records must be made available upon request by an appropriate U.S. government official.

§ 335.4 Allocation.

(a) Each Tariff Rate Quota (HTS 9902.51.11 and HTS 9902.51.12) will be allocated separately. Allocation will be based on an applicant's Worsted Wool Suit production, on a weighted average basis, and the proportion of imported Worsted Wool Fabric consumed in the production of Worsted Wool Suits.

(b) For the purpose of calculating allocations, Worsted Wool Suit production will be increased by the percentage of imported fabric consumed in the production of Worsted Wool Suits to total fabric consumed in this production. For example, if an applicant uses 30 percent imported fabric in the production of Worsted Wool Suits, that applicant's production level will be increased by 30 percent.

(c) The Department will cause to be published in the FEDERAL REGISTER its determination to allocate the Tariff Rate Quotas and will notify applicants of their respective allocation as soon as possible. Promptly thereafter, the Department will issue licenses.

§ 335.5 Licenses.

(a) Each Licensee will receive a license, which will include a unique control number. The license is subject to the surrender and reallocation provisions in § 335.6.

(b) A license may be exercised only for fabric entered for consumption, or withdrawn from warehouse for consumption, during the Tariff Rate Quota Year specified in the license. A license will be debited on the basis of date of entry for consumption or withdrawal from warehouse for consumption.

(c) A Licensee may import fabric certified by the importer as suitable for use in making suits, suit-type jackets, or trousers under the appropriate Tariff Rate Quota as specified in the license (*i.e.*, under the Tariff Rate Quota for fabric of worsted wool with average fiber diameters greater than 18.5 micron or the Tariff Rate Quota for fabric of worsted wool with average fiber diameters of 18.5 micron or less) up to the quantity specified in the license
